Surge & Contain Strategy

1. 150 officers added to downtown core. (Centre Town, Lower Town, Byward Market) Will be enforcing the law. Using cement barriers to contain 'red zone.' (Wellington Street in front of Parliament) Isolating & Containing Red Zone. Denying access to downtown Ottawa.

2. Investigation/Prosecution. Collecting info on all vehicles, drivers, persons, illegal activity. Charges will be pursued for any & all infractions. Chief emphasized vehicle insurance?

3. Restore the normal flow of commerce & community confidence/security. (Paraphrased)

Commissioner, to yesterday's confusion in our numbers directly helping/assigned to TPS:

Supt. André PHELPS' 18 bodies are the HSD QRT for the 4-series arteries leading into the city.

Here is our TPS supplemental list as of 0825hrs:

CR: 16  
Toronto Det: 5  
Aurora: 2  
TSU: 1

S/Sgt. Chuck KAISER is continuing his canvass.

Barrie advised us they're sending four officers.

I will forward these numbers to the EOC as they're not reflected accurately in the last update.

Commissioner, your email of 2202hrs refers. I believe Chris is willing to support you wholeheartedly. Chris will need someone from the OPP in the conversation to maintain privilege and his protection.

My thoughts are you may need to introduce this subject to Chief SLOLY & initiate the conversation. Chief SLOLY does need a refresh on police neutrality & legal thresholds. If he survives tomorrow, he needs to catch his breath, even if it's only for a few hours. Sage counsel from you needs to be considered. (Soak time)

I will put Chris on hold till the morning.

Respectfully Commissioner, challenging times & I recognize you are front & centre for resolving this unprecedented dilemma.

Unprecedented gravitas Commissioner. Need any reference materials/research, say the word. And the team "we have" is driven by your commitment.

(If I may, this is an Ontario solution as per our constitution. We are not Australia with a Federal District - Canberra)

Very respectfully Commissioner, time to catch your breath for a bit! Sleep well!

Thank you Commissioner. In the larger instance, it's an example of tremendously poor journalism. Thereafter, it's Ottawa deflecting blame. Initial preparation/inaction by Ottawa is a primary cause. Deny the battle is a theme to be compared against projecting strength to the extent it discourages confrontation. Tacit influence.

Ottawa:

Supt. Jamie DUNLOP (the identified OPS IC) is on a rest day.

The bulk of their specialized field resources are on a rest day.

Supt. Mark PATTERSON is the OPS IC today.

OPS is:

Feeling pressure "tackle an intersection "

Struggling with "Tow & Traffic Plan"

General pause on larger scope/tackling of area

York, GSPS & OPP POU's are in Ottawa today

Durham are heading home to return on the weekend

Peel back on-scene Wednesday

London tentative for Thursday

Hamilton undecided

RCMP "O" is preparing up to 500 members immediately to travel & remain in Ottawa till the 20th. Order has been given.

Given that TPS is expecting another attempted blockade this Saturday led by a more militant lead; The ask from TPS will be for 30 frontline officer from Friday to Monday Morning.

Waterloo is going to back TPS with a full POU complement

I will brief up on the FSB/TSOS side.

Gave Peter a heads-up. From this conversation came the thought we should have a "heavy-hitter" fronting the Integrated Planning Cell (IPC). This will put some tension in the lines so as to facilitate the free flow of the critical information required to build the plan. Will also demonstrate the gravity of the plan & upon presentation of the plan lock in accountability.

Just thinking out loud here Commissioner. With central coordination (& oversight of resources/resource utilization) falling to you, a Senior Municipal Officer be with & lead the IPC. Offered as food for thought.

Respectfully,

Mike

TPS have two they can offer who are described as a great team. Commissioner, given the size of this task I'd suggest we take the two.

The initial plan is easy it's the reaching out, liaising with the multiple police partners & filling the plan which will be arduous. (We may have to throw in a little more OPP ground muscle to get it going quickly.)

Awaiting your direction to put this out in an email with either one or two names.

Agreed Mike - let's take the two. It would be nice to have them all in Ottawa by tomorrow afternoon for an initial briefing late day briefing - exact location to be determined.

Carson likely get to Ottawa around 3 pm, but no doubt making phone calls along the way.

In any communication, we should ensure we refer to it as an integrated resource planning team to support OPS's operational plan(s).

We are meeting with Carson at 9 am, so we can load him up with the additional horsepower you recommend.

Good morning Commissioner - again.

Windsor - Ground Temperature

Source: Supt. Jason (Jay) CROWLEY, rock-solid partner.

Event started really confrontational with potential of violence. Truckers out with tire irons, agitating.

Quiet night.

Big ask is PLT. Does not foresee POU intervention in the near future. (Jay spoke with Chief THIB last night, made the ask & PLT will be there this morning.

Tight-Hold: WPS has access to the protestors' 'Zello' account. Paying dividends.

WPS CIC change shortly, Jay's been at it since yesterday morning. New CIC is Insp. Karen DEGRASS. I will share his #s.

I am floating up through Chief Patterson to commence with W/R a strategy - if it's not already being done - to keep Bluewater open.

Also will speak with Wallace, Tom B & Peter M for recommendations on balancing POU demands. Conversation was scheduled for tomorrow. Moving it up given Windsor potential. I will advise of recommendations & move them up through channels.

Good morning. Calm, direct input from Jay makes it so!

Message to Deputy Harkins for consideration...

Thinking... can we proactively work with CBSA to limit access to the bridges that are open, so trucks go through one at a time, avoiding a group being able to form a blockade.

My exact first thoughts. Very personally rewarding being a member of such teams.

The behind-the-scene team at Cornwall will be the same spirit, different discipline:

Community - as seen in the Sitrep will be first up. Next will be messages of support from Kanesatake & Kahnawake.

Then an ultimatum from the Warriors.

On the Cornwall side will be the visible negotiations attempts.

OPP are the bond with AMPS. (Once upon a time it was the RCMP) Chief Shawn DULUDE has no doubt rebuilt the bond with the SQ. CPS are not recognized at the table. Basic law of reciprocity. You gotta give to get.

Our man Marvin will have the skinny on everything.

Tim & his RCMP counterpart have now been joined by an OPS member and they are putting together the POU Ops Plan for "later this week." An update on needs will be forthcoming so that TLs can plan & work in rest & readiness.

Insp. Michel MARIN (OPS) briefed protestors "much more aggressive towards police" over the weekend.

It's been mentioned something is going on in Windsor, they weren't on the call. No further info (NFI)

GM again Commissioner, do you mind please asking C/Supt. PARDY for an update on the 1400hrs call.

He's "90%" of the way there in operationalizing the IRPT - getting OPS onboard for planning. There's some shopping by Ottawa still going on. Carson wants to "nip it in the bud."

I'm going to send a message beforehand to our Committee members in an attempt to align from this end. All inputs go to the OPP.GHQ.POC for tracking & back-up here. And our members in Ottawa have access to the EOC mailbox & file directories.

Thank you Commissioner.

As we wish to streamline communications we are waiting for the Dynamics-Based input forms presently being worked upon by the IRPT & the TPS Planning Unit.

A long way of saying we will have a letter for Carson to present to his Strategic Command Team partners in the morning. Once concurrence is reached, we will present this letter to you for review & consideration of required partner communication prior to forwarding the correspondence to the OACP to be distributed via APL.

Tim SKINNER is asking for two (2) POU Sections for Wednesday. OPS is planning an enforcement action with the use of their POU.

Ongoing ask thereafter is 4 sections/day through the week & 6/day. Hub Chairs have this info now. I am remaining silent to enable our Hub Chair's assessment & recommendations.

Comment: Large ask: Possibility of border interruption remains a concern as does the target of our provincial legislature. Our Hub Chairs are alive to these vulnerabilities.

We are blessed with practical, experienced leaders contributing to these decisions. As you know team welfare & strength must be weighed into sustainability & effectiveness.

I will keep you up to date on what's proposed. Presently, I don't anticipate a need for Executive consideration but we're not far from it if the tempo as asked continues.

Tremendous agility and partnership were demonstrated by the major Ontario police services in putting together a POU package.

Tough start in the morning with an urgent request for resources for a 'Positive Action' for tomorrow. No members of our Hub coordinating group were comfortable with the proposals. It was left that OPS needed to define the mission, objectives, impacting factors, etc. before we committed. Within minutes we were told the proposed mission was off. Shortly thereafter news broke re change.

Since then Commissioner, the pace has been hectic in identifying teams while still providing cover for Windsor, Niagara.

Bottom Line:

Step-Off Friday morning @ 0600hrs with 10 Sections. 4 in reserve for rotations commencing @ 0800hrs.

POU resources from:

Ottawa, OPP, York, Durham, Peel, SQ (X 3?), RCMP X 5, TPS + 8 Mounted.

TPS & OPP ORTs

Sweep will begin in the extremities, working towards Wellington.

Thursday briefing for TLs

Under the Emergency Act, the Federal Government is declaring an Exclusion Zone. Once declared, if you don't live there you must leave. To be enforced with discretion by police.

Ops period is projected to be for 72hrs.

London & Hamilton POUs are coming out of Windsor Friday morning with WRPS going in. OPP QRT X 2 will back them up. Hamilton will be ready to go to Niagara if needed with London on stand-by.

All good.

I apologize for dropping the ball on the TEAMS meeting Commissioner. No excuses.

And I'm paying for it, I missed your statement about the GiveSendGo donors.

Toronto Star provide us ten names so before calling Marty I hunt them all down. A S/Sgt, 2 Sgts, 7 Cst.

Phone Marty & realize you've already kicked it in gear. Some on our list Marty didn't have. PSU have ruled out the S/Sgt as not a match.

We will respond to The Star that we're aware & there's an active PSU investigation, followed by a statement of our values.

Presser is today. Question is how fulsome tomorrow's presser may be. Do we involve tactical leaders, etc?

Does this needlessly expose our tactical leaders? Our tactics? What some might take away & consider as decision-making criteria, defeating our future effectiveness?

Don't know Commissioner if you're getting copies of the OPS messaging to the Mayor & Chair PSB. This truncated from 0804hrs today:

Addressed 'Mayor & Chair'

We continue to hold positions throughout the downtown core.

There has been a major emphasis on High-Visibility patrols. Checkpoints remain in place.

Overnight

One man was re-arrested for breaching conditions from a weekend arrest.

A handful of protestors came & went from SJAM & Booth at times throughout the night.

Footprint of the exclusion zone remains in place. Fencing in place on Wellington, west of MacKenzie.

Coventry secure. 20 vehicles towed. Police presence will remain in place.

Moving Forward

Strong police presence will remain. Plans & contingencies for week ahead & weekend. "I will update the community later this week."

Thank businesses & residents for their patience.

Supporting local business is considered lawful if you are entering the secure area.

Media

No news conference today. Communicating thru Twitter, a news release & media office.

Commissioner, further to your email re RCMP statement which states "...the Act have granted us the authorities necessary to maintain the perimeter, restrict travel..."

Might this statement be derived from a legal counsel interpretation of provisions of the Emergency Regulations under the Emergency Act:

No one shall:

Participate in a public assembly ("breach-of-peace assembly") that may reasonably be expected to lead to a breach of the peace, such as:

- the serious disruption of the movement of persons or goods
- serious interference with trade
- interference with the functioning of critical infrastructure
- threats or acts of serious violence against persons or property

And from there we move down the regulation where 'no one shall' continues & it states: Travel to or within an area where a breach-of-peace assembly is taking place.

Food for thought only.

If in fact this is the case, it's a double-edged sword as the regulation is written in the present tense. Ergo, the secure area must be lifted.

Commissioner, just finished with a general POU/Emergency Response WEBEX with our larger Ontario partners.

General assessment given by Pat MORRIS is it appears the "wind is out of its sails."

No asks for any POU elements or supplemental resources.

Ottawa:

The Splendron Farms (Vankleek Hill) group has diminished to 12 to 15 vehicles. (85 % reduction) Whitelake group is down to 10 vehicles with 2 new campers on-scene.

The issue in moving the Secure Zone from Stage C (Somerset Street West) to Stage D (Queen Street) is snow removal & clean-up within Stage C.

There are still daily protests at The War Museum.

Windsor:

A few intersections still controlled/shut off from cross-traffic. Demobilization is continuing with the last OPP leaving Sunday contemporaneous to the WPS EOC collapsing. "A couple more weeks for the last few intersections" before they are opened to cross-traffic.

Toronto:

Anti-Russian Aggression demonstrators have obtained permits up to the 27th for both the Ukraine & U.S. consulates. Peaceful.

Alt-Right demos: TPS remain vigilant & prepared for Quick Reaction around Q.P. & Hospital Row (close proximity to U.S. Consulate)

Good Saturday morning Commissioner, I hope your day has started peacefully.

Commissioner, just to advise that a reply to a tweet from your Twitter account contains a complaint. The actual occurrence has been found & the complainant advised to contact the local Detachment &/or OIPRD. (E220181661) Individual arrested & charged with obstruction as well as Pedestrian on the Highway HTA.

Reviewed occurrence, QEW/Trafalagar, protest related. Good officer notes. Good case law out of Québec re assisting animals on a hwy, however in my view - after a very cursory review - the injured rabbit in this instance is a red herring.

Enjoy this day please!

Next step - protection of our image through enforceable copyrighting?

That's the parody. With respect, next question of which CCSMB owns a majority share, is community trust & respect. We will ensure the people of Ontario know of our OPP values & integrity despite the exploitation of a couple of terrible examples.
